

# MD. Shahriar Arafat Munna

Software Engineer

I am highly motivated, determine enthusiastic individual who thrives on challenge and able to work on won initiative, committed to work in a team environment work under well pressure

## EDUCATION

### Bachelor of Computer Science and Engineering

Northern University of Business & technology, Khulna

JAN 2018 – DEC 2023

## EXPERIENCE

### Junior Software Engineer

Digitalzet [10/05/2024 – 14/04/2025]

City: Limassol

Country: Cyprus

Website: <https://digitalzet.com/>

Name of unit or department: Software

As a Junior Software Engineer, I supported senior developers by contributing to frontend development across multiple web apps. Working remotely, I collaborated through GitHub to ensure clean, maintainable code and effective teamwork.

### Frontend Developer

P2CIT [02/11/2022 – 31/10/2023]

City: Khulna

Country: Bangladesh

Website: <https://plan2career.com/>

Name of unit or department: Software

As a frontend developer, my primary role is to work on the user interface (UI) and user experience (UX) of a website or web application. My focus is on the client-side of the application, which means I deal with the visual elements that users interact with directly.

## STRENGTH

# Action oriented

# Critical thinking

# Multitasking

# Responsibility

# Analytical

# Learning Agility
